OBEYING ORDERS, ST. LOUIS MEN END FLIGHT

**JACKSON, O'BRIEN
FLY 420 HOURS,
21½ MINUTES**

BRING ST. LOUIS-ROBIN TO PERFECT LANDING WITH THE POWER ON

BELIEVE THEY COULD ASCEND AGAIN AND BREAK THEIR OWN RECORD

St. Louis, July 31.—(U.P.)—The longest flight in history at a glance: Took off 7:17 A. M. July 13. Equalled Angeleno's record at 2:01 P. M. July 23. Started establishing new record at 3:01 P. M. July 23. Official landing time: 7:38:30 P. M. July 30. Total length of flight: 420 hours, 21 minutes and 30 seconds. Total time beyond Angeleno's record: 173 hours, 37 minutes, 58 seconds. Total fuel consumption: 3,590 gallons. Times refueled: 77. Estimated joint earnings of pilots: \$2 per minute, totaling approximately \$31,250.

By PAUL WEBER
(United Press Staff Correspondent)

St. Louis, Mo., July 31.—Aviation's newest heroes — two grinning young men who "look just as if they were going to a party" — received the plaudits of the world today, having made the longest airplane flight since mankind learned to fly.

Out in a hangar at Lambert-St. Louis airport stands a slim orange monoplane, its motor silent and its wheels on the earth for the first time in eighteen days.

The boys are Dale "Red" Jackson and Forrest "Obie" O'Brien. And the monoplane is the St. Louis-Robin. Those three names today were among the most famous in America.

The Robin landed at Lambert field last night at 7:49 P. M., having remained in continuous flight for 420 hours, 21½ minutes — or 173 hours and 37 minutes longer than any other plane that ever flew.

Jackson and O'Brien brought the plane to a perfect landing with the power on, unconquered and unwilling, still believing "we could take the same ship and break the record we have just set."

They landed under orders from Major William B. Robertson, chief sponsor of the flight, after it had been decided that all objects of the flight had been accomplished.

Estimated earnings of the pilots were \$31,250 jointly. So many different awards are waiting for them that the exact amount they will realize from the flight is unknown. It will average about \$2 per minute, it was estimated.

"Come down some time today," Major Robertson said in a message sent via the refueling plane yesterday morning.

For hours there was silence from the orange plane. Then late in the afternoon it roared low over the field, and dropped a note, curt with disappointment and chagrin: "We will land some time between six and eight. Maybe before that time."

Immediately crowds began to gather at Lambert field, and by seven o'clock a mass of 25,000 people were jammed along the runway.

Finally at about 7:35 the high-flying plane dived, circled close to the field and then landed. The crowd plunged through police lines and streamed out onto the runways, cheering and waving.

The glass door of the Robin opened and out stepped two neat, freshly-shaven young men, dressed in dark trousers and clean white shirts. Their straw hats were in their hands, and their faces bore wide and heartfelt grins.

Several persons were hurt, none seriously, as the great crowd closed in behind the police guard and flung itself cheering and screaming around the pair.

A flurry shook the police lines and there appeared two young women — tremendously excited. They were Mrs. Sally Jackson, wife of "Red," and Mrs. Elsie O'Brien, "Obie's better half." Much hugging and kissing ensued.

Both flyers apparently could hear with perfect ease, despite their 18 days behind a constantly roaring motor.

"How do you feel?" a United Press reporter asked Jackson.

"How do I look?" he replied.

"Just like you were going to a party."

"That's just the way I feel."

"Why did you decide to land?" they were asked.

The smile died off O'Brien's face, and Jackson's lips were grim.

"The death of George Lambert more than anything else," Jackson said slowly.

George Lea Lambert, close friend of the flyers and vice-president of Von Hoffman Aviation Company, was killed when he and a student pilot crashed seven miles from Lambert field on Monday.

It was the second tragedy to shadow the flight. The Robin's only competitor, the Minneapolis plane, Minnesota, crashed early Monday and killed its pilots, Capt. P. L. Crichton and Owen Haugland.

As soon as the crowd could be safely controlled, the flyers were taken in an automobile with police escort to an

STATE MOTOR PATROL TO WATCH HEAD, REAR LIGHTS

St. Paul, July 31.—(U.P.)—A campaign to avert accidents on the state highways caused by defective headlights and rear lights is being rigorously carried out by the state motor patrol, according to a statement received today from Earle Brown, chief of the new patrol.

"With the limited number of patrolmen we have, it will be impossible to check all the 'one-eyed' cars and glaring lights," he says. However, those who are stopped will be treated courteously and given a chance to get their lamps adjusted or get new bulbs, Brown said.

SENSATIONAL GUN BATTLE IN CHICAGO

KNOWN RACKETEER DEAD, AND TWO OTHER HOODLUMS DYING

FIRST APPEARANCE OF WOMAN IN GANGLAND ASSASSINATION ATTEMPT

Chicago, July 31.—(U.P.)—A known racketeer was dead and two other hoodlums were dying today after a sensational gun battle on a crowded thoroughfare of the near West side.

The duel, which was witnessed by hundreds of persons homeward bound from Loop theatres last night, marked the first appearance of a woman in a gangland assassination attempt.

The woman drove the automobile carrying the man who detectives say started the shooting. She sat calmly at its wheel as bullets whizzed around it. Then she drove her gangster escort to a hospital, left him and departed.

James ("Bozo") Shupe, 35-year-old ex-convict with a 20-year criminal record died today of his wounds. Little hope was held for the recovery of Thomas ("Big") McNichols, 37, and George Riggins, 39, cigar store partner of Shupe.

McNichols, detectives said, began firing as soon as his car came abreast the cigar store. Shupe and Riggins exchanged shot for shot with him.

When McNichols had emptied his gun, his woman chauffeur stepped on the gas and soon was out of sight, leaving Shupe and Riggins lying in the street.

Police said all three men were being run.

FOREST FIRES ARE GAINING HEADWAY

DRY WINDS CAUSE A DOZEN OR MORE TO SPRING UP IN CANADIAN NORTHWEST

Winnipeg, Man., July 31.—(U.P.)—Gaining headway before dry winds, a dozen or more forest fires were reported raging today through virgin timber areas in three provinces of the Canadian northwest.

The most serious blaze, reported nearly out of control on the Ontario-Manitoba boundary near English river, advanced westward over a 20-mile front, despite the desperate efforts of 200 rangers and scores of volunteer fighters.

Forestry officials today declared that continued dry weather may bring additional fires in the English river district and in other sections of Manitoba. Airplane scouts reported a shift in the wind to the north might bring danger from the English river fire to the Manitoba villages of Pine Falls, Poplar River and Berens River.

Scores of homesteaders near Brogg Creek, Alberta, saw their settlements saved today by a headwind which checked a 10-mile fire on High Divide. The blaze was reported spreading on both sides and threatening the villages of Crooked Creek and Baile Creek.

MODESTY COST LIFE OF MATRON

New York, July 31.—(U.P.)—Modesty cost the life of Mrs. Jennie Cull, 26. A bottle of cleaning fluid exploded at her home last night igniting her clothing.

Her screams attracted neighbors who attempted to rush to her assistance, but she refused to unlock the door. When a tenant climbed up a fire escape and smashed a window to gain entrance, he found Mrs. Cull dying of burns.

"I couldn't open the door," she gasped, "because all my clothes were burnt right off."

She died at Memorial hospital.

Capt. and Mrs. W. H. Fawcett to Entertain the Misses Dolores Del Rio and Claire Windsor

BIRTHDAY PARTY FOR MISS DEL RIO SATURDAY EVENING

FIRST EXPERIENCE OF NOTED SCREEN ACTRESS IN MINNESOTA LAKE COUNTRY

MISS WINDSOR LEAVING HOLLYWOOD TODAY BY PLANE TO ATTEND BIRTHDAY PARTY

Breezy Point, Minn., July 31.—To observe her twenty-third birthday amid the lakes and pines of the 10,000 lakes of Minnesota and to have Captain and Mrs. W. H. Fawcett sponsoring the party at Breezy Point Lodge is the novel experience coming to Dolores Del Rio this Saturday.

Miss Del Rio is playing an engagement at the Minnesota theatre, Minneapolis. She will be accompanied to Breezy Point by her mother, morning north with Captain Fawcett.

Miss Claire Windsor, another famous screen artist and close personal friend of Miss Del Rio, left Hollywood today accompanied by Mrs. Don Alvarado, and by taking a plane at several points, they expect to arrive in time to attend the birthday party. They will spend the rest of the summer at Breezy Point.

This is the first experience of the screen actresses in Minnesota's famous lake country and they expect to enjoy themselves to the utmost.

Col. and Mrs. Lindbergh Meet Their Second Plane Accident of the Day

Newark, N. J., July 31.—(U.P.)—Col. and Mrs. Charles A. Lindbergh met with their second airplane accident of the day when they landed at the Newark airport late last night.

It was almost a repetition of the mishap that occurred at Columbus, Ohio, earlier in the day. As they came down to the airport here, the floodlights at the field were thrown on. A tire on Lindbergh's plane blew out, and the left wheel and left wing of the ship were broken.

Neither Lindbergh nor his wife was injured. Without commenting on the accident, the Lindberghs went by automobile to the Morrow estate at Englewood, N. J.

Lindbergh was flying his speedy Curtiss Falcon and was returning from a business trip through the west. Expert handling of the ship in both cases averted possibly serious consequences.

GUATEMALAN GOOD WILL FLIERS TAKE OFF FOR WASHINGTON

BRITISH BOARD OF TRADE IN VESTRIS FINDINGS

ASSERTS VESSEL WAS NOT IN A SAFE CONDITION WHEN SHE LEFT HOBOKEN

NOT FIT TO ENCOUNTER PERILS OF WHAT PROVED TO BE HER FINAL VOYAGE

London, July 31.—(U.P.)—The steamer Vestris was not in a safe condition when she left Hoboken last November 10, and was not in a fit condition to encounter the perils of what proved to be her final voyage, the British board of trade found today in making public the report of its investigation of the Vestris disaster.

The court found that overloading contributed to the sinking of the vessel with the loss of 111 lives, and adjudged the responsible officers of Sanderson & Sons, New York agents of the Lamport and Holt Line, owners of the vessel, guilty of "wrongful act and default which contributed to the loss of the Vestris."

BOBBY JONES NOT CANDIDATE FOR CONGRESS

SEAT WAS LEFT VACANT BY THE DEATH LAST WEEK OF CONGRESSMAN STEELE

MEMBERS OF DELEGATION FROM CANTON, GA., HAD ASKED JONES TO RUN

Atlanta, Ga., July 31.—(U.P.)—Bobby Jones, national open and amateur golf champion, announced today that he would not be a candidate for congress from the fifth Georgia district, a seat left vacant by the death last week of Congressman Leslie J. Steele.

Members of a delegation from Canton, Georgia, original home of the Jones family, had asked the young Atlanta attorney to enter the race for that direction," Jones said.

"My inclinations are not political, even if I fancied I had any ability in the office."

London, July 31.—(U.P.)—Richard J. Reynolds, wealthy young American, was found guilty of manslaughter in old Bailey court today and was sentenced to serve five months in prison in the second division. Reynolds was ordered to pay the costs of the prosecution.

Chicago, July 31.—J. R. Stiles, a North Michigan Avenue promoter, today backed up the story of Mary Daly, who claims she made a 276-mile parachute jump from Chicago to Louisiana, Mo., overnight.

"She had a specially made oxygen tank which we bought in Kansas City for the jump," Stiles told the United Press, "and she called me by telephone this morning to say she had made the jump successfully."

All aviators checked by the United Press scoffed at the claim of drifting 276 miles in a parachute.

Somerville, N. J., July 31.—(U.P.)—How rough patches on a road saved the life of a six weeks old infant was revealed here today.

Baby Benjamin Bonini last night swallowed his mother's wrist watch at their home at Easton. Efforts to remove the timepiece failed, and so Mrs. Bonini called police.

Two patrolmen, in a motorcycle rushed the choking child for Somerset hospital. Just as death seemed imminent the vehicle hit a bump, bounced high and caused the babe to disgorge the watch.

Benjamin will recover.

PREACHER IS AGAINST MIXED BATHING PARTIES

Oklahoma City, Okla., July 31.—(U.P.)—Woe to the members of a Baptist church here if they are found participating in a mixed bathing party.

The Rev. R. C. Howard, pastor of the Kelham Avenue Baptist church, has banned from membership in his church all who go out for a dip in public pools where both men and women are swimming.

"The modern church is nothing but a vulgar social club," the Rev. Howard declared.

He said he would ban members who attended public dances, played cards or swore.

COMMANDER ECKNER MAKES ANNOUNCEMENT AT FRIEDRICHSHAFEN

3 WOMEN WILL BE AMONG THE PASSENGERS OF HUGE DIRIGIBLE

Friedrichshafen, Germany, July 31.—(U.P.)—The Graf Zeppelin will start her flight to the United States, a preliminary to a voyage around the world, at 3 A. M. tomorrow, Commander Hugo Eckner announced today.

Three women will be among the passengers on the dirigible's third attempt to fly the Atlantic westward. The second attempt failed.

By MAURITZ A. HALLGREN
(United Press Staff Correspondent)

Friedrichshafen, Germany, July 31.—The world-famous dirigible Graf Zeppelin, straining at its ground ropes here in the huge Friedrichshafen air-drome to be away on its second flight across the Atlantic to Lakehurst, N. J., may be forced to postpone its sailing date.

Officials of the Zeppelin works today said that it was unlikely that the big ship would start Thursday at dawn as had been contemplated because of reports of a suddenly approaching storm which might cut across the Zeppelin's path.

The course to be followed across the Atlantic is again puzzling Dr. Hugo Eckner, the Graf's commander. He had hoped to follow the northern route, which has been his long desired aerial pathway because it is much shorter. Weather conditions now, however, make the northern route difficult.

Present winds favor the middle course, flying over Bielefeld, Switzerland, and Larchelle, France, and then straight west over the Bay of Biscay out over the Atlantic following the 47th parallel.

Meteorologists believe that conditions will be unchanged Thursday and Friday, thus making this middle course the likely one if the approaching storm does not hinder the start.

The start had been tentatively set for 4 A. M. tomorrow, although Eckner said it was possible that he might start an hour or two earlier, depending on local weather conditions.

The uncertainty of the time of departure led passengers who are guests at leading hotels to plan a gala evening, with festivities continuing up to the time of the take-off.

Among the Graf Zeppelin passengers who arrived here today were Mr. and Mrs. George N. Crouse of Syracuse, N. Y., who came by train from Paris. The same train brought Susan Boltard, a Paris journalist. She is arranging passage on the Zeppelin and probably will occupy the cabin reserved for Mrs. Mary Pierce of New York, who was taken ill in Russia while on her way to Friedrichshafen.

Mlle. Boltard will be the third woman passenger on the Graf, the other being Mme. Gregoire Gourcitch.

EDISON SPEAKS TO SCHOLARSHIP CONTESTANTS

ELECTRICAL WIZARD SAYS THEY REPRESENT HIGH TYPE OF YOUTH OF AMERICA

West Orange, July 31.—(U.P.)—Thomas A. Edison, electrical wizard, told 49 young men who have been selected for the Edison scholarship contest from each state in the Union and the District of Columbia assembled here that they represented a high type of the youth of America picked by the nation's greatest minds.

The award to the "genius" winner will be made Friday.

"Those among us who are active judges will be influenced by many considerations in making the final awards," Edison said.

"We hope that time will prove our selections to have been a wise one, but this is up to the winners themselves."

"It must be remembered that there is no test, no suitable yardstick which can positively determine the relative value of one human being as compared to another. It would be a stupid race, however, if everybody won."

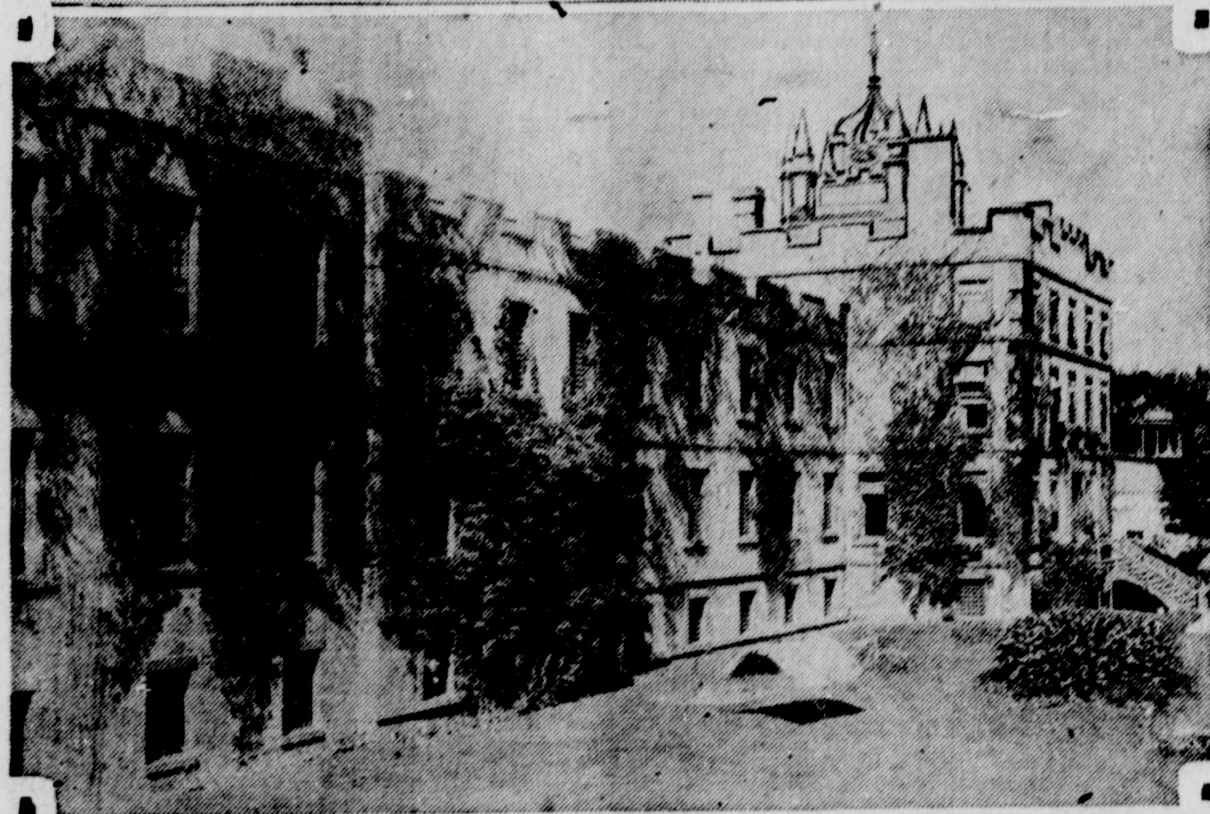

INSTANTLY KILLED BY FALLING OUT OF BED

Montreal, July 31.—(U.P.)—Police have determined that Mary McManus, 67, was instantly killed by falling out of bed last night.

It was hot and she moved her bed beside an open window on the third floor of St. Bridge's Home.

She used a great many pillows and apparently piled them so high that when she turned in her sleep she gained enough momentum to clear the window sill.

Fire and Death Sweep Auburn Prison

The photograph above shows the exterior of Auburn Prison at Auburn, N. Y., built 121 years ago. An armed revolt raged for six hours within these walls while 1,700 convicts sought to shoot their way to liberty. Every building was set afire and all communications cut off. Massed attacks on the gates were repelled by the guards with the aid of the State troopers,

national guard, police and fire departments. This second outbreak was a repetition of the attempted revolt at Dannemora, but the leaders had learned their lesson from the defeat of that uprising and they came closer to victory. Thirteen guards were shot, two convicts were killed and four escaped.

"MASHED" BY AN EXPERT WRESTLER

FLIRTATIOUS CHICAGO MAN GETS BLACK EYE FROM ATHLETIC GIRL

Chicago, July 31.—(UP)—George Duffy, 28, who figured himself quite a masher, now knows what it is to be "mashed" by an expert.

Hereafter he'll be more cautious in his flirtations, he says. Looks sometimes are deceptive. He has learned. George was loafing around a street corner watching the girls go by when "she" happened along. "She" was a petite blonde.

"Waiting for a street car, baby?" George began. She wasn't. She was busy shopping and she thought it best for George to run along.

"Then how about an auto ride?" persisted George.

Her answer came straight from the shoulder. Duffy, feeling his right eye going shut, tried to flee. An arm encircling his neck brought him to his knees. A blow between the shoulders landed him flat on his back. His head was bumping against the sidewalk when Police Sergeant James P. Walsh intervened.

The sergeant took George over to town hall station and booked him for disorderly conduct on complaint of Miss Virginia Mercereau, 28.

"What occupation, Miss Mercereau?" the sergeant inquired.

"Wrestler," she replied. "I'm the champion female wrestler of the world. Just look up the records."

"Well, I wish I had," sighed George as she walked out.

Mary Pickford Brings Perfect Voice Plus the Boyish Bob in "Coquette"

Three big photoplay events rolled into one are scheduled for next week's most important film entertainment in Crosby, and anticipation is at fever heat. Never has the theatre-going public seemed so eager to see and to hear and to appraise the ultra-modern achievement promised by America's foremost motion picture star in her newest film.

Mary Pickford, so long a silent heroine on the screen, has her premiere in the all-dialogue "Coquette" at the Peoples theatre, Crosby, beginning tonight.

In this production "America's Sweetheart" offers a triply radical advance in her art. She speaks her lines. She plays a witching contemporary flapper role with alluring bobbed hair. She plays an up-to-date Broadway drama in which a great social ordeal vies with the traditional Pickford sweetness and light, and in which significant heart-wrenching realism tests the very soul of the Pickford genius.

GOOD HOUSEKEEPING

Here's Money! For Your Church or Society

Organize a selling campaign for season tickets for the Crow Wing County Fair August 22, 23, 24. Hundreds of tickets are sold annually. The number can easily be doubled with a little selling effort. Appoint a committee to canvass your community. Get the selling commission for your organization. The time is very short and calls for action at once. Write today to A. C. Larson, secretary, Pequot, Minn., for details and supplies.

Special Price on Season Tickets to August 12

The regular price of season tickets is \$2. Until and including August 12 they will be on sale for \$1.25. No sales will be permitted after August 12 at the special rate.

Season Tickets Are Great Value

Season tickets provide low-cost admission to the county fair. The regular admission is 50 cents plus 25 cents for cars. The season ticket admits to all five programs and also admits car, and can be bought until August 12 for \$1.25.

Outstanding Programs Arranged

The aggregate cost of the entertainment for the 1929 fair is in excess of \$2100. This is a far greater sum than any previous fair program has received. The programs will be unusually varied and the admission price, for the quality of entertainment offered, is exceedingly low.

Premium Lists Are Out

The premium lists are out and may be secured by addressing the secretary at Pequot. Included with the list is a summary of the entertainment and other features of the fair. Write for a premium list. \$1700 offered in premiums.

PLAN NOW TO VISIT THE COUNTY FAIR

SOUTH OAK LAWN

Minnesota reminds us of Arizona's dusty roads and desert trails these days.

Mr. Taylor of Bay Lake is building a fireplace and chimney in the new C. W. Cunningham home.

Mrs. Fred Larson and Mrs. Henry Thompson of Nokay Lake were transacting business in Brainerd last Tuesday.

Mr. and Mrs. Dilbert Dingman motored to the city Wednesday.

Mr. and Mrs. A. S. Lindberg had as their guests Ephraim Andre and son Harold of Minneapolis.

Mrs. Dan Houser and family of Brainerd visited at the home of Jacob Houser Thursday.

Mrs. Andrew Larson and Miss Florence motored to the city Friday morning.

Rex Holmgren was a Brainerd caller Saturday.

A. M. Peterson was transacting business in the city Saturday afternoon.

Mr. and Mrs. Fred Aspholm and sons, Mrs. A. G. Trommald and son and Roger Kleven of Brainerd motored to upper South Long Lake to spend the evening at the Trommald cottage Friday.

Some unfortunate unknown persons had the misfortune of having their car badly wrecked near the Five Mile Corner Friday night.

A group of young folks of this locality attended the charivari dance held at Nokay Lake hall Saturday night.

Mr. and Mrs. Aug. Erickson were Brainerd shoppers Saturday.

Those whom were Sunday guests at the home of Mr. and Mrs. Aug. Erickson were Essen Olson of Detroit, Mich., Mr. and Mrs. C. Smith of Spokane, Wash., Rev. and Mrs. B. Colin of Grantsburg, Neb.

John Houser was in the city Monday morning.

Mrs. Lois Holler motored to Brainerd Monday afternoon.

The road work has begun on the Sagli and Cunningham roads. They have started to cut brush and expect to be grading soon. Fred Tracy has charge of the work.

Rexford Holmgren and Alfred Schwindeman left Monday for Devils Lake, N. D., en route they will go to Sidney, Mont., where Mr. Holmgren will visit his father. Later they expect to go to Washington where they will remain for the winter. They are making the trip by auto.

FORT RIPLEY

Mrs. R. Reid and children, Mrs. Wm. Gravel and daughters, Mr. and Mrs. Kruger and children and Marion Koering, Mrs. Fred Hellen and children were at the 4-H club picnic at Lum Park last Thursday. All enjoyed the ice cream and had a good time.

Mr. and Mrs. Wickman and daughter Clara of Nebraska who have been visiting at the Wickman home returned to their home Saturday. Miss Wickman will visit a few days longer.

A large crowd of St. Mathias folks attended Mr. and Mrs. Rene Maghan's dance in Fort Ripley Friday evening. Although the weather was hot all report a very good time and wish Mr. and Mrs. Maghan a long happy married life.

Mrs. A. F. Claus returned from a visit with her mother of Effie Sunday evening.

Mr. and Mrs. Fred Hellen and children, Frank Perlinger, Adam Tautges, Herman Koering, Georgia Tautges, Mr. and Mrs. Wm. Gravel, Esther Boskus, Miss Clara Wickman, John Wickman, Irene Perlinger, Mrs. Wickman, Willie Perlinger, Mr. and Mrs. Ott Jordan and children and Mrs. Paul Jordan all attended the water carnival at Lum Park Sunday.

Albert Hennanson who stays at the A. F. Claus home left Monday morning for a visit with his mother at Robbinsdale.

BRAINERD
25 YEARS AGO

From the Daily Dispatch

July 31, 1904

Mrs. Early and daughter Miss Mabel Early, Mr. and Mrs. J. P. Early and Mrs. Severn Koop and children have returned from Smiley where they have been enjoying an outing.

Miss Bess Burgoyne is expected home from Minneapolis tomorrow morning. She has been attending the university summer school for a month or two.

D. M. Clark is sick at St. Joseph's hospital. He has not been feeling well for some time and recently it was thought advisable that he be taken to the hospital and placed under more skillful medical care.

Dr. Hoorn will leave tonight for the east and will be gone for two weeks. He expects to visit the world's fair at St. Louis before returning to Brainerd. General Manager W. H. Gemmell of the M. & L. returned to his home in St. Paul after a trip over the line. He states he is very much pleased with crop conditions along the line and says prospects are very good for the coming season. Large logging contractors are also getting ready for a big winter's cut, and this will make business good in all lines.

The Brainerd Elks baseball team is getting in shape again and they have decided to branch out. They have arranged for a game with the Minneapolis Elks team for August 23. This is the anniversary of the organization of the Brainerd lodge.

Judge W. S. McClenahan this morning convened a special term of the district court at the court house for the purpose of granting those who have not taken out their final naturalization papers a chance to do so. A large number were in and perfected their papers.

101 Ranch Has 'Buckers' and Lost Boy Dept. Too

Colonel Zack T. Miller, owner of Miller Bros.' 101 Ranch Wild West, and the season's first "lost boy."

Things haven't entirely gone to the dogs! No sir! Small boys still play marbles, baseball, spin tops and—run away to "join the circus."

The circus still has that same indefinable appeal to the kids that it had in grandfather's day and joining a circus still divides honors in a boy's mind with "being a policeman," a soldier or a fireman.

And to all the rest of the trials and tribulations of operating one of the gigantic traveling tented amusement enterprises has been added one more. This time it's a "Lost Boys Department," and it has been inaugurated by the management of Miller Bros.' 101 Ranch Wild West which is coming to Brainerd, Friday, August 2, with a world of unusual features including the film star Jack Hoxie.

So many inquiries have reached the world-famous wild west show so far this season that Col. Zack T. Miller, owner, gave orders that it be made the particular business of some one person among the 1,100 people carried with the show to know just who belongs and who doesn't. And it fell to the lot of Frank Gavin, superintendent of concessions, to know every person on the lot, where they came from, and if of tender years, why. So it isn't hard to find a boy with the "circus wanderlust" if he has joined the 101 Ranch show and when he is found he is promptly sent back home "prepaid" so there isn't any question of him getting there. The 101 Ranch is the biggest show of the season and comes to

"Let's be fair about this matter of deciding which is the best cigarette," said OLD GOLD to Mr. American Smoker last January.

"That sounds reasonable," replied Mr. S. "What do you want me to do?"

"Well," continued O. G., "why don't you smoke me and the other three leading brands with paper masks covering our names, so you can't tell us apart? And leave it to your taste to say which one it likes best?"

And Mr. American Smoker did . . . with the following results.

In February, the nation gave OLD GOLD a rousing sales boost over January. In March, April, May and June this brisk upward sales swing continued unabated, with June racing ahead to nearly double the sales of January.

OLD GOLD wins in these tests because it is a better cigarette. Blended by skilled blenders from Nature's choicest queen-leaf tobaccos, its finer quality just naturally proclaims itself in any reliable comparison of cigarettes.

Because it IS a smoother and better cigarette with . . . "not a cough in a carload"

One-Piece Suit for Men

THE other day we recorded the public appearance of a Southern editor in pajamas, his recipe to combat hot weather.

Now comes the Christian Science Monitor and says that in the last analysis it is the one-piece suit that the men want, and argues that the men are beginning to be a bit jealous of the women. The article continues:

A generation or two ago, when women fought against dress reform for the traditions of several centuries, when women's skirts were carpet sweepers and sidewalk cleaners, men had the most of the comforts of dress and women the discomforts. Apparently conditions have reversed themselves.

Nowadays women look over the bargain counters, pick out a piece of light cloth with four holes in it, hand the clerk \$1.98 and take home a comfortable summer dress. And it looks well, too. What does the man do? He pokes around a lot of woolen goods and finally decides on one of those four-piece affairs that ought to last a couple of winters and two or three summers. He dons the knickerbockers, and a nice, warm pair of heavy woolen stockings, guaranteed to start the perspiration at any temperature, slips his feet into a pair of brogans, puts on a coat and perhaps a vest, tops the ensemble with a cap that resembles the popovers his grandmother used to make, and starts off for a round of golf. It is a wonder he does not put on mittens.

The men are just beginning to realize that such an outfit is not necessarily the acme of comfort, and it is the reform in women's dress that has awakened them. They may not be crying aloud for radical changes, but no doubt they are ready for gradual developments toward greater simplicity. They are thinking of how nice and comfortable it would be if they, too, could inclose themselves in a light-weight, one-piece suit, in color and design not to depart too radically from tradition, and cast into the nearest junk pile such accessories and paraphernalia as belts, suspenders, waistcoats, collars and cuffs.

Forty-nine Boys Worried

THE brain battle which they will wage with Thomas A. Edison at East Orange, N. J., has 49 boys worried a bit today.

Tomorrow these boys, including our John Lowey of Brainerd, and representing every state and the District of Columbia, will take an examination to determine who is the "logical successor" of Edison in the world of science. The winner will get as his prize the Edison scholarship which entitles him to tuition in any technical school he chooses.

The hopes of Brainerd and all Minnesota are centered on their representative, young Lowey. We believe the boy is fully equipped, mentally, physically and in other ways to be a successor to the famed Edison, and after proper training and coaching to step into his shoes whenever the "Wizard of Menlo Park" expresses a desire to vacate them.

All of the five judges are due tomorrow. Dr. S. W. Stratton, President of the Massachusetts Institute of Technology; Dr. Lewis Perry, headmaster of Phillips-Exeter Academy, and George Eastman are now at East Orange. Col. Charles A. Lindbergh and Henry Ford are to arrive tomorrow.

The examinations as held at St. Paul for the state of Minnesota were most difficult as told us by young Lowey. The final examinations will be more so, and arrayed in friendly competition are the brightest brains of the various other states and the District of Columbia. To emerge triumphant will be a great distinction in itself. To compete in such a trial is a great honor too.

Tarvia Highway to Lum Park

WITH graveling now in progress and tarvia work about to start August 7 on the Merrifield road, why not have the highway to Lum Park given a tarvia coat?

Thousands of cars visit the popular park of the city and people enjoy the bathing and other hot weather recreation. After being nicely cooled off and refreshed they reenter their cars and then drive down a dust-laden highway which obliterates all the rejuvenation obtained at the lake.

Now is the time to approach the city councilmen and other city officials and voice a plea to have tarvia spread on the highway to Lum park and to make that road a dustless thoroughfare. The contractor is working on the Merrifield road, has all his material and men assembled, and bid very reasonably for the Merrifield job and would no doubt be pleased to tarvia the connecting link to Lum Park if authorized by the city.

The highway to the park proposed to be treated with tarvia extends from the corner of Mill and Ash about a half a mile. It is practically a dirt road and would have to carry a heavy foundation coat of gravel.

Of course, it will cost something to make the improvement, but in Lum Park, which means so much to all of us and to the many tourists and other visitors to Brainerd, we can afford to give them a thoroughly dustless highway, so that the enjoyment derived at the lake will be carried back to town unscathed and minus any dust.

Every Man is Entitled to His Opinion

EVERY man is entitled to his opinion, and every woman, too, for that matter. The arguments start when the other fellow wants his opinion to rule and be final in the matter.

If we all thought alike or waited until our opinions were molded by some central authority, it would be a sorry world and little interest would be taken in controversial subjects.

But as the world stands today, there are differences in science, politics, and other important subjects, and threshing these out results in the advancement of the race.

Sometimes the new theory advanced is so intricate that only the most learned know what "it's all about." For instance the latest Einstein theory, it is said, is thoroughly understood by only seven scientists.

THE Bremen, not content with making a record traveling westward across the Atlantic, now seeks one for the east crossing.

LOS ANGELES is spending \$1,500,000 on an airport. The field is 240 acres in extent and has runways in six directions.

THE Russian Soviet has eight experts studying wheat growing in the Middle West.

LADY LUCK SEEMS TO HAVE TURNED BACK ON PIRATES

PITTSBURGH IS FLOUNDERING IN DEEP WATER

STRIVING VAINLY TO GET BOTH FEET FIRMLY ON BOTTOM AGAIN

SO THEY MAY RETURN TO FIGHT FOR NATIONAL LEAGUE LEADERSHIP

By WILLIAM J. DUNN
(United Press Staff Correspondent)
New York, July 31.—Lady Luck seems to have turned her back on fiery Donnie Bush and his peppery Pittsburgh Pirates.

The Pirates are floundering in deep water these days, striving vainly to get both feet firmly on the bottom again so they may return to the fight for the National League leadership. Much of the fighting spirit that marked their play during the first half of the season seems to have ebbed as a result of the series of mishaps that has robbed the Buccaneers of some of their most valuable talent.

The first serious quirk of fate was the injury of Pie Traynor, third baseman, in the game at Philadelphia July 11. The blow was a severe one for Traynor was probably without an equal at third base.

The other major casualty occurred in New York on July 20 when Burleigh Grimes, leading pitcher of the league at the time, injured his throwing hand while winning his sixteenth game of the season. Grimes is still out.

Then there have been other injuries, minor ones for the most part, but serious enough to mar the chances of the Pirates for two or three days. George Grantham and Paul Waner both suffered minor injuries.

Worst of all is the effect this series of mishaps seems to be having on the morale of the team. They look like a team that is convinced it is out of luck.

Returning to Pittsburgh last week, the Pirates were hailed as returning heroes—feasted, toasted and praised by the well meaning citizenry who were sure of a Pittsburgh angle in the 1929 world series.

That homecoming reception seemed to mark the turning point for the Pirates. Since then they have won only three out of eight games played.

As if to further the discomfiture of their chief rivals, the Chicago Cubs won nine straight games in that same period, coming from second place to take a lead of four and a half games over Pittsburgh.

STATE WOMEN'S GOLF TOURNEY IS UNDER WAY

GERTRUDE BOOTHBY, ROCHESTER, HAS LOW SCORE OF 91 IN YESTERDAY'S PLAY

BEGINS 1ST ROUND CHAMPIONSHIP FLIGHT WITH MRS. A. A. HOUSTON TODAY

Minneapolis, July 31.—(U.P.)—Gertrude Boothby, Rochester, with a low score of 91 in yesterday's qualifying round of the Minnesota women's golf championship tournament, was to begin today's first round of the championship flight, paired with Mrs. A. A. Houston, Minneapolis. Mrs. Houston finished yesterday's play with a 99.

Miss Boothby took a three stroke margin over the runner-up, Mrs. Dow George of Country Club, Minneapolis, who had 94.

Scores of 101 or less placed 16 of the nearly one hundred contestants in position to start the championship flight today.

Others who finished with outstanding scores were Mrs. Eleanor Fournet, St. Cloud, 96; Mrs. F. E. Gale, Interlachen, 96; Mrs. A. W. Chapp, White Bear, 97; Mrs. Frank Davis, Town and Country, 98, and Mrs. H. Haroldson, Duluth, 98.

MANDELL IS FULL OF CONFIDENCE IN TITLE BOUT

TRAINING HARD TO BATTLE WITH CANZONERI

FAST AND CLEVER AS EVER, MANDELL IS STILL TWO POUNDS OVERWEIGHT

HIS CAMP FOLLOWERS BELIEVE "SAMMY WILL GALLOP TO A VICTORY"

Chicago, July 31.—(U.P.)—Full of the confidence which has characterized his every fight, Sammy Mandell, lightweight champion, today was ready to conclude hard training for his title bout with Tony Canzoneri here Friday night.

Apparently as fast and as clever as ever, Mandell was still two pounds over the 135 pound lightweight limit today but he expressed the belief that "the extra weight will come off easily." Those in Mandell's camp were confident that Sammy "will gallop to victory." Manager Eddie Kane said he realized that "Canzoneri is a good fighter" but that Mandell will tie him up. "Canzoneri will make a lot of motions but he won't get anywhere," Kane said.

Light work will comprise Mandell's training between now and the fight. Canzoneri, believing his best chance for victory is a knockout, has concentrated on punching. He hopes to get inside Mandell's left hand and resort to body punching.

Epicurean Shark
In the capricious interior of a six-foot man-eating leopard shark, caught at Miami, Fla., a taxidermist found a porcupine fish, two leatherjacket fish, six rabbit feet, six chicken legs and a sprinkling of feathers, two pigeons, handed on the leg numbers, six anchovies, a cowfish, a lizard fish, a sabre fish, a toad fish and a variety of unidentified specimens.

Mechanical Marvels

Gene was so machine-like—so safe and sure in methodically accumulating points—that he never was able to win the applause that the charging, snorting, scowling Dempsey could, and can!

Tommy Loughran—handsome, gentlemanly, and the equal (if not the superior) of Tunney in general intelligence—is another who lacks "color" apparently, although for years he has been one of fistiana's most perfect machines.

Some golf critics are already asserting that the tendency towards mechanical perfection in Horton Smith's game robs that 21-year-old Joplin star of "color," although his Lindbergh-like stature, dazzling boyish smile, and tasteful attire are conspicuous usually before large galleries wherever he plays. However, he is modest to the point of bashfulness and indulges in no shows of temperament—losing or winning with smiling grace. Horton does not strive for the spectacular. "His game lacks showmanship," some hard-boiled observers declare. Yet Horton Smith is teamed professionally with one of the most colorful of all champions—the ever picturesque Walter Hagen, who is also a great mechanical player with that "color" stuff plus. The combination of this old and young master—"The Haig" and "The Joplin Kid"—is a rainbow of "color," or some of his own, if the cool-headed Missourian thinks it worth while.

"Color" is the "it" of sport, the psychic magnet that attracts big personal followings and magnetizes mobs. Rampant egotism, gallery playing, and bad manners sometimes create "color" or, and this is far more common, spectacular gestures of the gambling spirit.

Occasionally, a great sport star is better off without "color" or too much of it. But the boys who count the gate receipts will promptly pronounce that idea "crazy" in terms far more sulphurously vivid! Professional sport years for the "colorful" talent that packs in mobs and piles up "dough" in box offices everywhere.

COLORED BALL TEAM HERE TOMORROW TO PLAY RAILROADERS

THE McCOY-NOLAN GIANTS COME WITH REPUTATION AS ONE OF BEST CLUBS ON ROAD

HAVE PLAYED 97 GAMES, LOSING ONLY 14 IN TOUR THROUGH EIGHT STATES

The McCoy-Nolan Giants, colored travelling club, will invade Brainerd Thursday evening to play the Brainerd Northern Pacific team at the municipal field.

The Giants will come with a reputation of being one of the best clubs on the road. They have played 97 games, losing but 14 in their tour this season through Louisiana, Mississippi, Texas, Oklahoma, Kansas, Nebraska, South Dakota and Minnesota.

Richmond will handle the hurling duty for the locals with Fogelstrom on the receiving end. They will be supported by Hanson, Peterson, Jarboe and Loomis in the infield, with Ringer, Nutting, Fitzharris in the outfield, and Erickson, J. Fitzharris, Haultala and Swanson on the reserve line.

Watching the Scoreboard

(By United Press)

Yesterday's Hero — Al Simmons whose home run and single enabled the Philadelphia Athletics to beat Detroit, 5 to 4, in 10 innings. Simmons' homer with Cochrane on base in the ninth started the three run rally that tied the score. In the tenth he singled to score Bishop with the winning run. The New York Yankees pounded out a 7 to 3 victory over Chicago, reaching Alphonse Thomas for 14 hits. Herb Pennock allowed the White Sox 10 safe blows.

Washington overcame a five-run lead to beat St. Louis, 11 to 9, in a free hitting game. The winners scored nine runs in the fifth, sixth and seventh innings.

Cleveland took an early lead at Boston and finished the first game of the series with an easy 11 to 4 victory. Ferrell was reached for 13 hits by the Red Sox but kept them well scattered. The Chicago Cubs ran their winning streak to nine games and increased their lead in the National League to four and a half games by beating the Boston Braves, 4 to 0.

Seven runs in the third inning and five in the seventh enabled Philadelphia to take an easy victory from Pittsburgh. The final score was 13 to 5.

The New York Giants checked the Cincinnati Reds, 3 to 0, in a closely played game. Cohen hit a homer for the Giants in the seventh.

Dazzy Vance received another defeat when the Brooklyn Robins lost an 11-inning game at St. Louis, 10 to 9.

Association Tabs
Metz's error in the twelfth gave Kansas City a 9 to 8 win over Indianapolis. Gerken doubled in the twelfth. Kothe swung at two, then drove the hot liner at Metz, which he was unable to handle. Three Blue pitchers allowed 13 hits, while Ken Penner, Indian ace, was hit safely 15 times.

A big fifth inning rally netted six runs for St. Paul, the Saints defeating Toledo, 9 to 4. Five hits and two walks accounted for the Saints' runs in the fifth. Ruble, Rosenfeld and Hargrave hit home runs.

In a wild hitting spree, Columbus outscored Minneapolis, 22 to 15. Forty-six hits were made in the game. This included seven home runs, one triple and 15 doubles. Cuccinello, Columbus second baseman, hit two home runs, a triple, double and a single.

Louisville was unable to hit Gearin, little Southpaw, Milwaukee winning from the Colonels, 8 to 2. Milwaukee turned in six double plays, believed to be a modern record.

"POOR PITCHING" IS BLAMED FOR HEAVY HITTING

BELIEVE IT MAJOR CAUSE, MORE SO THAN THE "LIVELY BALL"

FIVE MANAGERS EXPRESS SATISFACTION WITH THE PRESENT BALL

By BERT DEMBY
(United Press Staff Correspondent)

Chicago, July 31.—(U.P.)—While they believe the "lively ball has something to do with it," a majority of American association managers think "poor pitching" is the major cause of the present epidemic of extra base hits. Five of the managers expressed satisfaction with the present ball. Three said they believed the ball should be changed.

Casey Stengel, one time big league outfielder and now pilot at Toledo, turned in the severest complaint on the present ball. He blamed the "rabbit" ball for the apparent loss of the arts of "fielding, bunting and base running."

"The quick thinking, sharp fielding players seem to have been replaced by the huge fellow who can drive the ball a mile," Stengel said.

Art Sothoron, former big league pitcher and now manager of Louisville, believes the home run is the "great kick of a game and is responsible for the growing interest in baseball."

"The pitching is far below par," he said. "A good pitcher still is just as hard to hit as ever and live ball or no live ball if you can't hit it you can't knock it anywhere. It's the pitchers job to prevent the ball being hit squarely."

Marty Berghammer, Milwaukee, and Nemo Leibold, Columbus, sided with Stengel in opposing the lively ball. Both lamented the decline in base stealing and sharp fielding.

Bruno Betzel, Indianapolis, expressed satisfaction with the present ball but said he believed the pitcher "should be given more leeway in the matter of new balls."

"Dutch" Zwilling, Kansas City, termed the present ball "one of the biggest assets of the game."

"Fans want to see lots of long hits, home runs and heavy scoring," Zwilling commented.

The success of the hitters in the association is evidenced by the fact that 12 and 14 run games are not unusual. On July 26, there were 70 runs scored in the four games in the league.

JAMBOREE OF BOY SCOUTS OPENS TODAY

1300 STURDY YOUNG AMERICANS
MARCH INTO VAST ARENA,
ARROW PARK

THUNDEROUS CHEERS GREET
THEM AS THEY LEAD PAR-
ADE OF 50,000 BOYS

By WALLACE CARROLL
(United Press Staff Correspondent)
Arrow Park, England, July 31. —
Thirteen hundred sturdy young Amer-
icans, representing the flower of the
boyhood of the United States, march-
ed into the vast arena here today as
the great Jamboree of the Boy Scouts
of the world was formally opened.

The Americans led the van, and
the rhythmic swinging stride of the
straight, healthy-looking boys from
overseas brought thunderous cheers
from the crowd.

Behind them in the huge parade
came the Australians, Armenians,
Brazilians and so on through the al-
phabet, until approximately 50,000
young men representing 71 national-
ities had paraded past the stand.

They were reviewed by the Duke of
Connaught, uncle of the king, who
made a speech of welcome formally
opening the Jamboree.

Extract Pleasure From

"Pleasantry of Dread"

"An ingenious American," says Dr.
Joseph Lobel, in "Don't Be Afraid,"
"has characterized fear . . . as a 'do-
mestic sport.' Just as in various
games we expose ourselves to danger,
knowing with certainty that we shall
escape, just as we enjoy the pleasant
ticklish feeling that ensues as a re-
sult of this combination of sensations,
'so,' says he, 'we often create for our-
selves, out of a pure desire for sensa-
tion, the pleasantry of dread.'"

"It is not man alone who sets out
to learn how to shudder. The mother
who sits on the couch anxiously await-
ing her boy's return from school, is
doing the same thing. She surrenders
herself to feelings of anxiety and pic-
tures his having fallen into the water.
In reality, she feels nothing of the
kind. Otherwise she would have
rushed long ago to the water, instead
of sitting quietly on the couch, indulg-
ing, pleasantly, in feelings of appre-
hension.

"But picturing to herself all the dan-
gers into which her son may have
fallen, she is unconsciously enjoying
herself. Out of the everyday, monotonous
home-coming of her youngster,
she has created a dramatic event. She
will welcome him with a sigh of relief
and happiness when he crosses the
threshold just as she had really been
expecting him to arrive, safe and
sound."

American Elk Splendid

Creature of the Wild

The American elk, or wapiti, is the
most beautiful and stately of all the
deer tribe. He is not actually an elk,
for the name really belongs to the elk
of Europe, an animal very closely re-
lated to our moose.

Some of the Indian tribes called
him wapiti, and we might well let it
go at that, believing that it is a good
name, writes Arthur Newton Pack in
Nature Magazine. At any rate, when
I first saw one of these great, tall
antlered bulls looking at me as I crept
to the edge of the lick, my heart cer-
tainly went wapiti-wapiti-wap.

I remembered that once—once upon
a time—these handsome fellows had
ranged from the Atlantic slope to the
Rocky mountains and beyond to the
very Pacific; but now there were but
few left and most of those were here
in the Rocky mountain woods.

While the elk are content to stay in
the mountains during the summer, the
deep winter snows drive them down
to the valleys, where men make fences
out of piled antlers.

Death by Sunshine

Sunshine, the great cure-all and
life-giver, is a paradox in one case at
least. Through the medium of the
geranium it spells death to insects.

Insects which are attracted by the
leaves of this beautiful plant feast
upon them and then drop paralyzed
and usually die. Where the sun comes
in is indicated by the fact that the
deadliness of the poison depends upon
the amount of exposure to the sun of
the plant, those of longest exposure
being the deadliest.

This discovery has opened up a new
field in the study of insecticides and
experiments are being pushed to de-
termine what the death-dealing agent
may be.

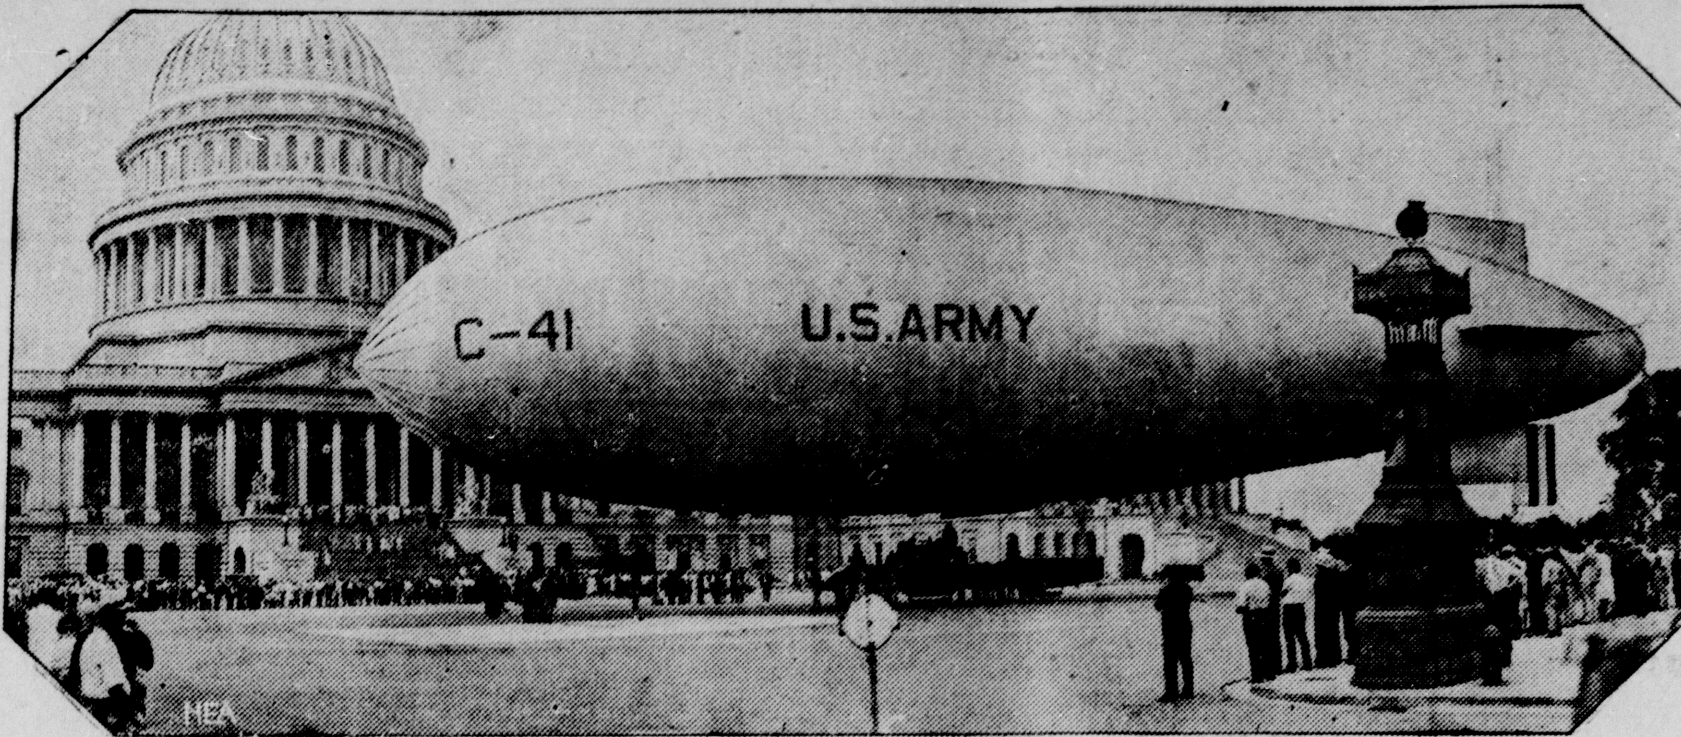

Crockery Wreckage Huge

More than 200,000 glasses were
smashed in the last year on the res-
taurant cars of a German company
which has about 600 cars in the in-
ternational European traffic. The
glasses smashed represent five times
the normal number carried. One hun-
dred thousand pieces of crockery are
in use, but more than twice that num-
ber are broken annually. Only 27,000
beer glasses are in use, but 114,000
are broken each year.

NEW SENATORIAL TAXI—ARMY BLIMP LANDS SENATOR BINGHAM ON CAPITOL PLAZA

This remarkable picture shows the landing of an army blimp within a very few feet of the national capitol building at Washington. As Washington officials gasped from astonishment, the army blimp C-41 slid gracefully down to earth on the capitol plaza and allowed Senator Hiram Bingham of Connecticut, who had been transported from Langley Field, Va., to hop out and hurry into the building to an important tariff committee meeting. The blimp descended and soared aloft again without the slightest mishap.

"No ordinary standards of speed, power, and ease of riding,
operating and upkeep cost, can be applied to the Chrysler. + +
This car compels so complete a revolution in all previous ideas
of motor car performance and value, that you can compre-

it is built on fundamental engineering principles. But in the Chrysler
these principles have been made to yield results heretofore unknown."

A BILLION-DOLLAR VOTE OF CONFIDENCE

The public has invested in Chrysler
motor cars the staggering total of one
billion, thirteen million, five hundred
and forty-six thousand dollars—
\$1,013,546,000—in five years' time.

This amazing demand for Chrysler has
been inseparably associated with public
appreciation of the speed, power, beauty
and long life of Chrysler cars.

Chrysler superiority has lifted Chrysler
over the heads of long-established cars
to its present lofty place in the industry.

The public appreciates the significance
of Chrysler's unique engineering and
manufacturing principle of Standard-
ized Quality. It realizes that Chrysler's

achievements in performance, in smart-
ness, in comfort, in safety, in stamina,
in long life, in quality and in value are
possible only by virtue of that principle.
That is why Chrysler has been awarded
such unprecedented public preference.

Today, as five years ago, you can com-
prehend Chrysler's sensational results
only through personal experience. We
invite you to submit any Chrysler—

ASHES OF CHILD TAKEN FROM FIRE

Body of Raymond Raudis, 5, Reduced to Ashes in Farm Barn Fire Last Night

PLAYING WITH MATCHES

Son of Mr. and Mrs. Frank Raudis, Farmers, Trapped When Flames Spread Quickly

Trapped in a burning barn on his parents' farm, Raymond, 5 year old son of Mr. and Mrs. Frank Raudis, farmers living near Little Falls, was burned to death late Tuesday. The child's body was almost entirely reduced to ashes.

The fire is believed to have started by the child playing with matches. The barn was completely destroyed. Parents watched frantically as the barn burned to the ground the heat being so intense that it was impossible to get within yards of it.

The child's parents saw the fire only after the barn was enveloped in flames, so fast did the blaze spread. Their frantic fears that their child was in the barn was tragically substantiated by the finding of the ashes of the body and trinkets which the child carried. Attempts to stop the fire by farm hands proved futile.

TICKET SALES FOR COUNTY FAIR START

The sale of season tickets to the Crow Wing county fair to be held at Pequot August 22, 23 and 24 is being offered to women's organizations of the territory this week by the fair management. "Hundreds of these tickets are sold annually," said A. C. Larson, secretary, "and we believe that if a few live women's organizations of the county, such as ladies aids, women's clubs, the ladies bands, etc., would take hold of the sales the sales would easily double or triple and the organizations would be well paid for their efforts from the commissions we could afford to pay."

The regular price of a season ticket is \$2. This ticket admits to all programs of the fair, and the ticket this year admits a car also. Until August 12, however, the price is reduced to \$1.25. The season ticket provides a low-price admission to an unusual fair program this year.

"We have never had such an array of free entertainment," said F. T. Gustavson, president of the fair. "The entertainers on the programs will receive in excess of \$2,100, and our great difficulty will be in finding places for all of them in the programs. There will be the utmost variety and everything is of a clean, high-class nature."

County fair premium lists are out, and this year the book carries a supplement which gives a summary of the programs. Books have been widely circulated, but if anyone has not received one, it will be sent promptly by addressing the secretary at Pequot.

Boys and girls club work will be a feature of the fair this fall, and with several hundred entrants in clubs of the county, it is expected that competition will be keen.

BRUSH FIRES SWEEP AREA IN DISTRICT

Situation Reported Today as Most Serious of Season; Many Fire-fighters Out

BUILDINGS ARE THREATENED

30 Men Fight Blaze East of Trommald; Fire at Woodrow Reported Under Control

Brush fires were sweeping over approximately 500 acres of land in this district today in the most serious outbreak of fires this season.

Every available forest fire fighter was recruited by State Forestry officials to stop the spread of flames which are threatening farm buildings and grain lands.

Forestry men and farmers united this afternoon to save the old mining town of Woodrow when a forest fire spread to mining buildings now unused.

Twenty vacant buildings and five buildings occupied by residents were in the path of the flames. The fire is reported from Woodrow to be nearing control.

Thirty men were fighting a fire today which is burning over 300 acres east of Trommald. Other fires reported included one west of Hubert, a ten-acre fire in Staples township, a 20 acre fire south of Hillman, five acres near Love Lake, one near Pillager and another north of Hillman.

HAD MORE THAN LIMIT

Missouri Fishermen Fined for Exceeding Limit in Possession

Frank M. Cooper of Macon, Mo., and J. C. Haupin of Clarence, Mo., were apprehended this morning for having more than the limit of pike in possession. They had in their possession a 10 gallon ice cream can of steak pike, about 80 in number.

C. E. Lucas of Wahkon, game warden, saw them in Crow Wing county, became suspicious of them and followed them into Mille Lacs county. As they stopped at the Indian Trading Post, Lucas conducted a search of the car. They were arraigned before Judge Gove at Vineland, fines and costs amounting to \$20 each. The fish were confiscated.

Disturbing Thought

THROWN AGAINST WINDSHIELD

11 Year Old Daggett Brook Girl Cut About Face by Splintered Glass, Car Hits Ditch

Marie Raihl, 11 year old Daggett Brook girl received cuts about the face from splintered glass when she was thrown against the windshield of the car in which she was riding yesterday afternoon with her sister, Miss Alvina who was driving the car.

The accident happened in South Long Lake township as Miss Raihl turned into a side road from a farm residence off 13th street about ten miles from the city. She explained that in driving into the road the car went into a ditch under excavation for a culvert. Both received medical treatment at Brainerd. Miss Alvina received minor bruises.

OLD TRADING POST SAVED BY FIREMEN

Flames From Grass Fire Lick Walls of Historic Building on West Main Street

The old trading post, West Main street, popular trading center and rendezvous in the 80's, now vacant, was threatened by a grass fire yesterday afternoon.

The city fire department saved the relic of bygone days after the flames had licked the time worn walls of the structure.

Old timers recalled when the trading post was in its heyday, of the picturesque dances put on by Indians there after bringing for marketing furs in the winter and blueberries in the summer.

CAUTION IS URGED

Fire Department Asks That Special Care be Taken in Preventing Grass Fires

A prevalence of grass fires on the outskirts of the city today brought a request from the City Fire Department to all persons to refrain from starting grass fires and to use caution in the discarding of live cigarettes.

The department has answered four grass fires in the past 24 hours.

The New BUICK

NEW Fisher styling... **NEW** 99 Horsepower Valve-in-Head Engine*
NEW Controlled Servo Mechanical Brakes... **NEW** Steering Gear
NEW Road Shock Eliminator • **NEW** Double Acting Shock Absorbers
NEW Non Glare Windshield •

America has taken this new Buick to its heart. Millions have thronged to see it... tens of thousands have already placed orders... other thousands have requested demonstrations... all have found that in the five major elements of motor car appeal—beauty, performance, comfort, safety, value—this new Buick with Body by Fisher strides far ahead of any other car in the entire quality field.

New Fisher Styling

The new Buick Bodies by Fisher are longer, lower, more luxurious. They reveal new Fisher styling—new beauty of line and appointment—new colors—which have won outspoken admiration. And they introduce a host of new features including the new Fisher Non-Glare Windshield for safer night driving; new and richer upholstery; and new fittings and appointments of princely luxury.

Pacemaker of Performance

Moreover, Buick for 1930 reveals this same marked supremacy—this same increased leadership—in fleet,

spirited behavior on the road. Its new and bigger Valve-in-Head engine—developing 99 horsepower—provides matchless new virility, pick-up, swiftness and flexibility. A single drive will prove it the *pacemaker of performance*. And the same drive will disclose marvelous new handling ease, comfort and safety, due to a new and improved steering gear and new road shock eliminator; new double-acting shock absorbers which check both bound and rebound; and new controlled Servo enclosed mechanical brakes, the most effective braking system on any car in the world.

See, Drive and Own This New Buick

Bear in mind, this new Buick with its many advancements is offered at new low prices—in three new series and three new wheelbases, with only one standard of quality throughout—the finest in its field. Come see the new Buicks and arrange to drive one. Among the 14 attractive body types is exactly the Buick for you.

*The new engine in the 132- and 124-inch wheelbase series develops 99 horsepower—and the new engine in the 118-inch series, 80½ horsepower.

The Skyscraper Murder

by SAMUEL SPEWACK

WHAT HAS GONE BEFORE.

PHILLIP EDISON is host at a night-club party to his just-recently-divorced wife and Oliver Sewell, sportsman and Don Juan. Edison presumes that Sewell and the divorcee are to be married. When the party breaks up, Edison goes to Sewell's home while he is waiting his return, is informed Sewell has been found dead. Inspector Marx begins a police investigation. He questions Sewell's Russian valet. The elevator operator is also questioned. He did not see Sewell return. A young medical examiner, with a taste for detective work, assists Marx. Their search of the apartment reveals complete wardrobes for women in different colors. In a safe-deposit box they find a scrap of paper bearing the inscription, "Paid in Full." The following day a Major Preston, who has been a sporting associate of Sewell's, is interrogated. Then Sewell's widow visits the apartment. She intimates that Preston might know something. As the investigators are standing, after Mrs. Sewell's departure, looking at a mirror door, it opens, and Mrs. Edison appears. She relates a story which the police do not believe. After she leaves, her lawyer threatens Marx with political reprisals if the woman is molested. Then Edison visits the apartment. As he goes out a shot is heard. The Russian butler is found dead and Edison is arrested. Mary Pennell, whose clothes are found in the apartment, is questioned. She identifies the "Paid in Full" note as her uncle's, the Major's handwriting. A diary belonging to the dead butler is found. It relates a story of the famous Shah diamond which came into his hands in Russia while Sewell was there.

NOW GO ON WITH THE STORY.

CHAPTER XV.

HER blue-green eyes glowed with the intensity of the jewel as she held it in her white hands. She uttered a low moan of delight.

"But for God's sake," I cried, "we must hide it before they find it."

Nina did not seem to hear me. She continued to stare, fascinated at the stone. I snatched it from her. Furiously she seized my wrist, and demanded it back.

"Don't be a fool!" she whispered. "Sewell—he is an American. They will never suspect him. He will hide it for us."

An inspiration, I thought. Sewell would be the ideal custodian for the jewel.

"He will take it out of the country," she said. "We will meet him at the border, and he will give it back to us. We shall be so rich we can buy a large house in Paris, a villa in Cannes—Oh, Ivan, we can be so happy!"

It was a glorious picture she painted, and I seemed to see its bright colors mirrored in that magic stone which could heal all the disasters of fortune, all the woes of revolution, all the treachery of mankind. Then I was brought back to my senses.

"But at any moment they may be here. Where is Sewell's room?" I asked.

"Don't worry," she advised me, and kissed me tenderly. "Just go out into the corridor as if you know nothing at all. Let them search you. Tomorrow come back here, and I shall tell you the news."

The voices of the soldiers came nearer at that moment. I opened the door and stepped out into the corridor.

Immediately I was seized upon by the soldiers and roughly cross-questioned. I explained sullenly I was a carpenter, assigned to repairs in the building. They searched me, and then apparently satisfied, let me go.

Then I heard them knocking at Nina's door. I pretended to be examining the waiting, and waited in agony. Minutes passed, but they seemed hours to me. Then I heard the soldiers leave their room. They proceeded to the

next. I breathed a sigh of relief. Somehow Nina had managed to dispose of the diamond.

"She fumbled with her gown and produced something wrapped in tissue paper. 'Here it is' she breathed heavily and thrust the package in my hand. 'They're coming here to search and if they find it we'll both be dead.'"

I didn't know that Sewell's room was next to hers, and that the doors opened.

Then I made my way out of the hotel and walked back to my humble quarters. There I waited and dreamt of the fortune to come, of Paris in the springtime, of happiness regained. I did not eat. Food seemed so unimportant then. I did not sleep. I could not.

With feverish impatience I waited for the dawn. And then for a reasonable hour to make my

call. Finally I risked visiting the hotel at nine, an unconsciously early hour for Russia, and made my way once more to Nina's room. I knocked at the door. There was no answer. I opened it. The room was empty.

Downstairs I made cautious inquiries. I was told that the American, Sewell, and Nina had left the hotel early that morning.

I ran back to my home. Nina knew the address. I thought perhaps she had sent me a message of some sort. But, no.

The realization that I had been duped did not come to me for weeks. Always I thought that some circumstance of which I knew nothing had compelled Nina to act the way she did. And then, when I had heard nothing for months of dread and uncertainty, I knew I had been a fool.

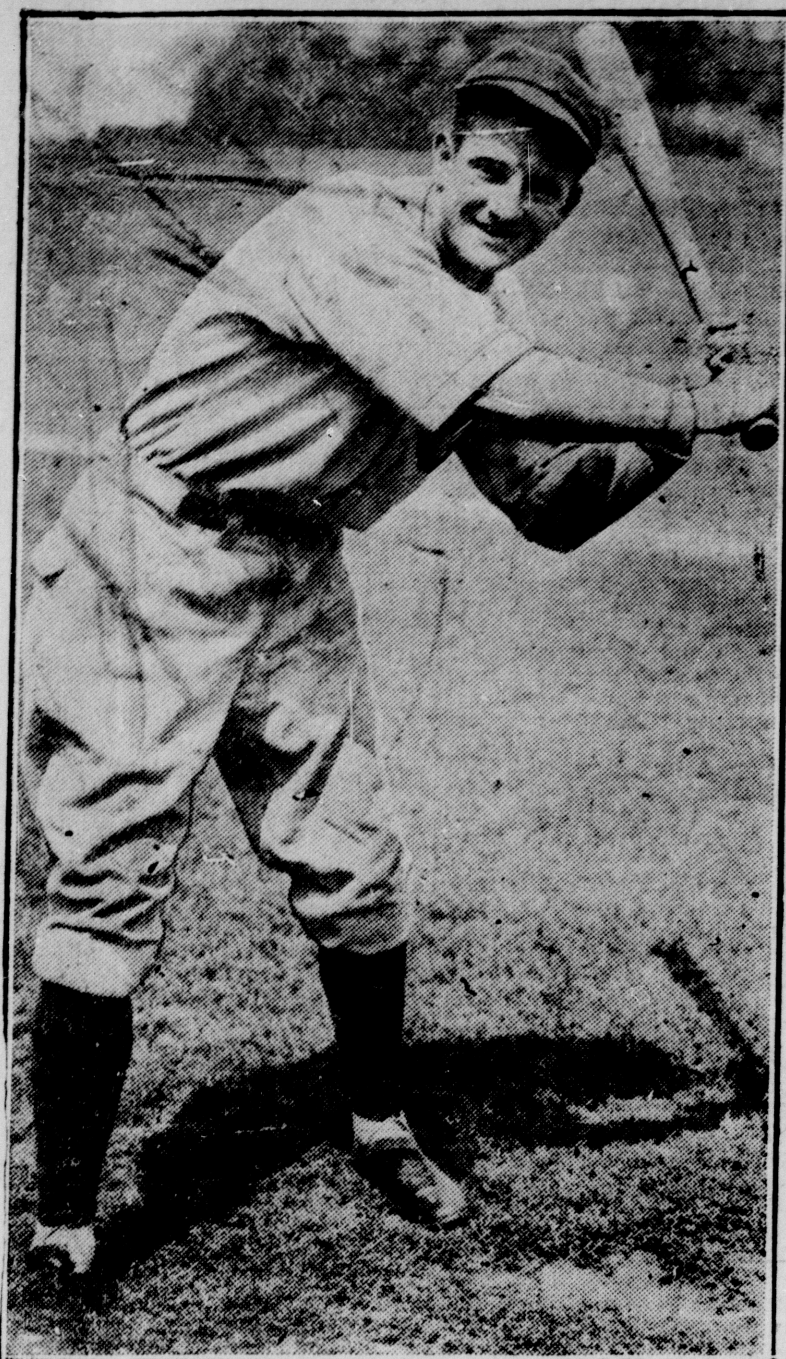

But if I am slow, I am obstinate. I do not accept defeat easily. Knowing I had been victimized, I was determined to seek her out to seek out Sewell, and obtain my just share of that magic stone.

I shall not here describe the difficulties that attended my leav-

ing Russia; the months of hunger I endured until I reached Paris. There I missed them by a week. They had sailed for America. So I finally managed to get myself on board an Italian freighter as a kitchen helper, and I, too, arrived in America, penniless, of course, but filled with this single purpose of vengeance.
